

SUGGESTED USE:† Take 3 tablets, 2 times per day.

WHAT IS NITRIC STACK™?

Nitric Stack™ is an advanced Nitric Oxide supplement utilizing a combination of ingredients to ensure athletes and bodybuilders perpetual body pumps, strength, recuperation and endurance.†

WHAT'S IN NITRIC STACK™?

Nitric Stack™ contains pharmaceutical grade AAKG and CEE HCL. AAKG is the most advanced form of L-Arginine, an amino acid which is converted into Nitric Oxide. CEE HCL is the most advanced form of Creatine. Both ingredients (AAKG & CEE HCL) are essential for increasing blood flow to your muscles for full body pumps!†

HOW DOES THIS WORK?

Nitric Stack™ uses the combination of Arginine AKG and Citrulline Malate, an Amino acid which continuously recycles itself in to Nitric Oxide and will continuously recycle the converted Arginine AKG in to Nitric Oxide over and over again. This combination ensures Maximum Longer Lasting Pumps. †

HOW IS NITRIC STACK™ DELIVERED?

Nitric Stack™ contains Alpha Lipoic Acid, a supplement designed to rapidly deliver the active ingredients into the blood stream as well as phosphates, supplements that are important for delivering ingredients into the muscles.†

HOW LONG DOES NITRIC STACK™ LAST?

During the manufacturing process, NITRIC STACK™ undergoes a special process to glaze each tablet with a film coat. This coating prevents stomach acid from dissolving the tablet. Therefore the tablet is passed into the small intestine where it is does not have to compete with other nutrients and is better absorbed into your blood stream. The digestion in the small intestine will take up to 4 hours, therefore allowing your muscles to benefit from the nutrients during the entire digestion period.†
